

**PRESS RELEASE**  
**July 2019**

**Olé for top employees at iNua Collection! A summer lunch celebration of iNua Employees of the Year 2018 before their prize trip to Barcelona**

Always focused on staff development and team morale, senior management from The iNua Collection hosted a summer celebration lunch at Dax Restaurant in Dublin yesterday to honour a number of Employees of the Year working across the group.

The lunch — hosted by Sean O’Driscoll, Chief Operating Officer, Deirdre Buckley, Group HR Director and Brenda Murphy, Group Director of Sales & Marketing, along with the General Managers who work with each of the winners — was the first element of a two part prize, with the second being a trip to Barcelona for each of the deserving winners.

Choosing iNua Employees of the Year every year is a tough task, with the relevant General Manager in each hotel property filling in evaluation forms at the start of the following year, listing and ranking a number of essential attributes including a “can do” attitude, guest feedback and peer nominations to decide employee of the month.

From **Muckross Park Hotel & Spa in Killarney, Porter, Fergus Cameron** won Employee of the Year for his dedication to his role and the wider team. It was noted by General Manager, Frits Potgieter that Fergus “steps up to the plate on a regular basis and is consistently exceeding guests expectations” Fergus has won Employee of The Month twice by his peers and another deciding factor was the number of comment cards and guest feedback all referencing Fergus and his exemplary service.

Speaking at the celebratory lunch, Sean O’Driscoll, Chief Operating Officer of iNua Collection said, “It’s fantastic to see such a high calibre of employee within iNua Collection. We’re proud of the teams that work so hard across the Collection and we’re delighted to be able to celebrate with those that have won Employee of the Year 2018. I hope each of the deserving winners enjoys their trip to Barcelona and that they bring back fresh ideas that they can implement in their roles with iNua.”
